Traffic Advisory ***Temporary Lane Closures of Light Street***

The Baltimore City Department of Transportation today announced temporary lane closures of Light Street.

Beginning immediately and expected to last until November 9, 2007, the two right lanes on Light Street between Lexington and Redwood Street will be closed. The closures are necessary to reconstruct the roadway.

Motorists traveling in the area are advised to proceed with caution, exercise patience, and expect delays. If you do not need to travel in this area of downtown ***please*** use alternate routes.

The Department of Transportation is committed to “Keeping Baltimore moving safely now and in the future”.
